NONORGANIC INGREDIENT DISCLOSURE

This form must be completed for any nonorganic ingredient in a processed product that is labeled "organic", or "made with organic (specified ingredients or food group(s))" to verify the non-organic ingredient is compliant with §§205.105(e)(f)(g) of the National Organic Program (7 CFR Part 205).

§ 205.105 Allowed and prohibited substances, methods, and ingredients in organic production and handling. To be sold or labeled as "100 percent organic", "organic", or "made with organic (specified ingredients or food group(s))", the product must be produced and handled without the use of:

- (e) Excluded methods except for vaccines, Provided, That, the vaccines are approved in accordance with § 206.600(a);
- (f) Ionizing radiation, as described in Food and Drug Administration regulation, 21 CFR 179.26; and
- (g) Sewage sludge.

National Organic Program Definitions

Excluded Methods are a variety of methods used to genetically modify organisms or influence their growth and development by means that are not possible under natural conditions or processes and are not considered compatible with organic production. Such methods include cell fusion, microencapsulation and macroencapsulation, and recombinant DNA technology (including gene deletion, gene doubling, introducing a foreign gene, and changing the positions of genes when achieved by recombinant DNA technology). Such methods do not include the use of traditional breeding, conjugation, fermentation, hybridization, in vitro fertilization, or tissue culture.

Ionizing Radiation is prohibited for food preservation and sanitation, pathogen control, microbial disinfection and pest control. The final rule does not prohibit the use of FDA-approved X-ray applications for inspecting food.

Sewage Sludge is a solid, semisolid, or liquid residue generated during the treatment of domestic sewage in a treatment works. Sewage sludge includes but is not limited to: domestic septage, scum or solids removed in primary, secondary, or advanced wastewater treatment processes; and a material derived from sewage sludge. Sewage sludge does not include ash generated during the firing of sewage sludge in a sewage sludge incinerator or grit and screenings generated during preliminary treatment of domestic sewage in a treatment works.

Ingredient (Be specific)	Manufacturer	Address	Supplier
MARZYME 55 PF	DANISCO FRANCE SAS	2 AV BRON FAULQUIER BP5 38470 VINAY FRANCE	DANISCO

I affirm being the manufacturer or supplier/source that the ingredient(s) identified above is/are in compliance with §§205.105(e)(f)(g) of the National Organic Program (7CFR Part 205).
