

PRODUCT DESCRIPTION - PD 207125-5.0EN

Material no. 50473

CHOOZIT™ MD 88 LYO 125 DCU

CHOOZIT™ Cheese Cultures

Description

Freeze-dried concentrated lactic starter for the direct vat inoculation of milk and milk bases.

Directions for use

Store at temperature < 4 °C in dry atmosphere. When stored at negative temperature, keep the sachet at room temperature for 30 to 60 minutes before opening. If not, the performance of the culture is affected. Prolonged exposure at room temperature will reduce performances. Check before use that the culture is in powder form. Add directly to the manufacturing milk as soon as the agitation blades of the vat are covered with milk. Avoid foam and air introduction in the milk.

Important recommendations:

If the product has formed a solid mass, it should be discarded. To keep bacteriophage contamination under control, ensure plant and equipments are cleaned and disinfected with appropriate products at regular intervals to limit bacteriophage concentration level. Avoid any system that brings back part of end products to the beginning of the processing line in order to limit phage propagation.

We do not accept any liability in case of undue application.

Composition

Lactococcus lactis subsp. lactis biovar. diacetylactis

Carrier:

Sucrose

Maltodextrins

Properties

- CHOOZIT™ MD 88 LYO 125 DCU is used for additional aroma development, flavouring with diacetyl production.

- Direct vat inoculation of milk and cream.

A phage alternative is available on request.

Microbiological specifications

1 DCU of culture represents a population of at least 2.10E10 cells.

Microbiological quality control - standard values and methods

Coliforms	< 10 / g [1]
Enterococci	< 20 / g [2]
Yeasts	< 10 / g [3]
Moulds	< 10 / g [3]
Staphylococci coagulase positive	< 10 / g [4]
Listeria monocytogenes	neg. / 25 g [5]
Salmonella	neg. / 25 g [6]

[1] NF V08-015, IDF 73A-1985

[2] Gelose bile esculine sodium azide / 48 h at 37 °C

[3] NF V08-022, IDF 94B-1991

[4] NF V08-057, IDF 145A-1997

[5] NF V08-055, IDF 143A-1990

[6] NF V08-052, IDF 93B-1995

Storage

18 months from date of production at <= 4 °C

Packaging

Sachets made with three layers of material (polyethylene, aluminium, polyester). The following information is printed on each sachet: product name, pack size, batch n° and shelf life.

Quantity

Shipment cartons each containing 50 sachets

Purity and legal status

CHOOZIT™ MD 88 LYO 125 DCU meets the specification laid down by the EU legislation.

Label food regulations should always be consulted concerning the status of this product, as legislation regarding its use in food may vary from country to country.
